## **VARIANCE APPLICATION**

These permits generally are designed for a modification or variation from the provisions of the zoning district in which a property is located. They are typically granted when there are reasons of exceptional circumstances unique to the property which would cause a hardship. Variances require a public notification and hearing in accordance with MN Statutes.

PLEASE READ BEFORE COMPLETING. ONLY COMPLETE APPLICATIONS WILL BE ACCEPTED!

Applications must be completed, returned to City Hall, <u>AND APPROVED</u> before any construction can begin. A land use application must be completed and attached to the variance application.
